Dear Mr. Fernandez,

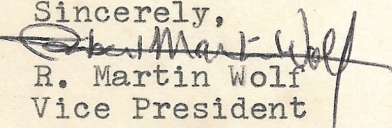

I am very sorry that I have been unable to answer you before this. I hope your No. 0 that appeared in May was a success and that you will be doing more. I don't quite understand what it is that you are publishing, however, and would like to have a clarification of that, if possible.

I see no reason why you can't publish occasional articles from Pursuit as long as you credit each article printed with the name of the journal and the address and name of the Society. I would ask, however, that any article that you print be sent to us in translated form so that we may have a copy of it for our files (a number of our members read French).

And, yes! We would like very much to have an exchange of information. Any articles that you think we might be interested in which you have translated from French to English we would be most happy to receive, and we would consider publishing some of them in our journal Pursuit (of course after getting permission from the authors or publications concerned). We would be especially grateful for anything that you could send us in translated form (from French to English) from the journal KADATH. If you are not acquainted with this journal, I would suggest you look into it - it is an exceptionally fine publication. You might contact Patrick Ferryn c/o Kadath, edited by PRIM'EDIT sprl, 6, Boulevard St-Michel - B - 1150 Bruxelles, Belgium.

Thank you for your interest in our Society. Please write to me and let me know the type of publication that you are planning to publish and the name of the publication, and if you could, please send a sample copy.

Sincerely,

  
R. Martin Wolf  
Vice President

P.S. - Although I read French, I hesitate to write to you in French. If you would like to write to me in French, please do so.
